*Compost Certification:		
STA - The US Composting Council's Seal of Testing Assurance Program; it assures that compost producers regularly sample & test compost using STA program-approved labs, for chemical, physical, and biological properties, using the same standardized testing methodologies. (www.compostingcouncil.org)		
OMRI - Organic Materials Review Institute ; it assures product compliance with the regulations of the National Organic Program, and offers a third party review of compost "for use in organic production." (www.omri.org)
