

# Bay-Friendly Training & Qualification Program for Maintaining Landscapes Sustainably (Spanish)

San Francisco - October 2016

**The Bay-Friendly Training & Qualification program** provides a comprehensive education in environmentally responsible strategies for landscape design, construction and maintenance.

Landscape professionals who complete the course by attending all classes and passing a practicum will earn the **Bay-Friendly Qualified Professional qualification.**

This four-day training is taught by leading experts in soil health, irrigation, plant care, stormwater management, integrated pest management and more. The course includes a combination of in-class lectures, exercises and hands-on activities. **Spanish will be the primary language used.** English will be used when necessary.

This maintenance training program will be held in Spanish and provides landscape professionals with:

- Knowledge of the environmental effects of landscape maintenance practices
- Hands-on experience with practical, effective construction practices
- A certificate of qualification
- A listing on SFE's website and ReScape CA's website that promotes your business
- Eligibility to apply for contracts and jobs that require Bay-Friendly Qualification such as those with City of Oakland

**REGISTER ONLINE** | [bfspanish2016.eventbrite.com](http://bfspanish2016.eventbrite.com) or search for: Bay Friendly Training
