

EARTH TIPS

Presented by Altamont Education Advisory Board

Make an Action Hero Journal this year by saving each month's Earth Tips page!

Cut out each month's Earth Tips activity page and paste it on a sheet of binder paper. On the back, keep a journal of action steps you have taken to take good care of our planet. **You'll be a real Action Hero!**

I'm Super Reducer!
I show people how to use less stuff!

I'm Rot Girl!
I show you how to compost food scraps, yard waste and food-soiled paper!

I'm The Recycler!
I remind you to recycle stuff you no longer need, instead of trashing it.

I'm Professor Reuse!
I show people how to reuse things rather than getting new stuff!

STOPWASTE
at home • at work • at school

(Re)sponsible is Caring

Our planet Earth takes care of us. It provides us with air, water and many natural and important resources that help us survive. If we use too many of the Earth's resources quickly or not take care of them, they might not be available as we need them.

Earth needs us to take care of her so she can take care of us and our environment. We do this by being responsible and caring global citizens.

I ♥ Earth!

What do you love about the Earth? Look at the pictures of the natural resources Earth provides for us. Put a heart around each of the natural resources that you love. Under each one, write a sentence about how you will care for, or conserve and appreciate this resource.

- Share your action story and a picture to schools@stopwaste.org
- Post @StopWaste #StopWasteSchools #IAmPartOfTheRegeneration
