 ReUse Assist
Powered by Environmental Innovations

Get up to \$500 in FREE reusable foodware and hands on support!

Public agency StopWaste is helping food businesses in Alameda County switch to dine-in reusables with mini-grants and support from the ReUse Assist Program by Environmental Innovations. Here's how it works:

➔ We provide the incentive

We will buy up to \$500 worth of reusable foodware to help you make the switch. No complicated paperwork or reimbursement steps.

➔ We handle research, purchasing, and delivery

We will work with you to select the right foodware for your needs, then manage the ordering and getting it to your door.

➔ You gain the benefits

Save money by eliminating ongoing costs of single-use items, improve customer experience with high-quality foodware, and demonstrate your commitment to sustainability by reducing plastic waste.

“By switching to reusables, I’ve saved money and helped the environment — it’s a win for everyone!”

— Inder Sandhu, Owner, Tasty Indian Subs & Pizza
