

ADVIKA S., KEERTHIKA G. & LOUKYA A., FREMONT

MAY THE 4RS BE WITH YOU CONTEST 2022

Our 4Rs: Reimagine ,Rethink, Replant, and Remake

Our (Re)Generation Action Story

We chose Reimagine because, reimagine the world without pollution or people not throwing away their trash in the correct bins. To add on we chose Rethink because, rethink before you do something stupid and just throw your trash on the ground or do something crazy like cut down a tree(just an example) or just throw your trash in the correct place that will make a big difference.

Next I will talk about the third 4'R this one will make a big difference it is Replant you have to replant because if you don't we won't have enough fresh air to breath and without

that we will die and so act fast and at least plant a new tree, vine or plant to make the world a better place whether it's in you backyard or front please do it!

Last but not least the last 4'R is Remake We chose remake because remake the world into a better place shape it into a non polluted area! How we act now contributes to how our future generations take care of our world lets all work a a community to make things right.
