## AMERICAN HIGH SCHOOL SCIENCE & ECO CLUB, FREMONT

May the 4Rs Be With You Contest 2021

## My 4Rs: Responsibility, Rethinking, Respect, Regeneration

## My (Re)Generation Action Story:

We, the officers of American High School's Science and Eco Club, know that the ways WE can be part of the Regeneration are wide and varied. Everyone can bring something to the table to advance the goal of a more sustainable future. In our collage, we've all written out what we are doing, or hope to do, to be a part of the (re)Generation. From Shreya's (re)thinking of our water systems, Anna's (re)sponsibility with her consumption, Seana's (re)spect for the earth and more, we are stronger together. We are the (Re)Generation.
