My 4Rs: Rethink

My (Re)Generation Action Story:

I rethink before I toss because trash is harmful to the ecosystems and to us. I want to be a scientist when I grow up, and not polluting is one step closer to helping me understand about the world and the things that live and grow in it. I think the majority of the world wants no litter, and us humans are the only ones making the litter, so we should stop it. Without litter, we will have the beautiful world that we were given.
