Greetings:

Subject: Quarterly Disbursement of Measure D Revenues – April to June 2021

The Alameda County Waste Reduction and Recycling Initiative (Measure D) levies a surcharge on solid waste landfilled in unincorporated Alameda County. Fifty percent of Recycling Fund revenues are disbursed to cities and sanitary districts that meet criteria contained in the law. Funds disbursed to jurisdictions must be used "...for the continuation and expansion of municipal recycling programs."

The quarterly Measure D disbursement for your jurisdiction, covering the period April - June 2021, is enclosed with the copy of this letter sent to your staff Technical Advisory Committee (TAC) representative or designee. Population numbers were updated in August 2020 in accordance with board policy; updated population numbers per jurisdiction can be found in the Chart of Allocations below.

Tonnages for April, May and June 2021 (Q4) were two percent over the estimated target budget for that quarter. Total FY20/21 tonnages and distributions were consistent with the estimated budget - \$4,934,960 was distributed over the fiscal year to eligible member agencies (budgeted distribution was estimated at \$4,913,308).

Annual Measure D reporting forms must be submitted using the StopWaste online web portal by October 22, 2021. An overview of the portal and reporting processes for member agency staff will occur at the September TAC meeting; access information will be sent via email after the meeting.

If you have any questions about the provisions of Measure D, please contact me at msoll@stopwaste.org

Sincerely,

Measure D Fund Allocations to Jurisdictions – Explanation of Calculations and Distributions

Per [Measure D, subsection 64.060 \(B\)](#), 50% of Measure D tonnage revenue is allocated to qualifying jurisdictions on a per-capita basis. Jurisdictions each receive a per-capita share of the 50% of Measure D fund revenues collected per quarter.

Recycling Board [Resolution 94-27](#) is the policy that identifies the methodologies and procedures that direct the frequency and data sources to be used for calculation of the population-based disbursements from the Measure D's Recycling Fund to jurisdictions.

Per the Resolution, every other year, in the month of August in the even-numbered year, estimated population is updated using the [State Department of Finance population estimates table E5](#) for cities and unincorporated areas in Alameda County. Final Federal Census data are used to update Alameda County jurisdiction population every 10 years.

For Oro Loma and Castro Valley Sanitary Districts, the Alameda County Community Development Agency utilizes a combination of Census data and Alameda Local Agency Formation Commission (LAFCo) jurisdiction boundaries to estimate sanitary district population and provides those estimates to the Waste Management Authority to be applied to sanitary district Measure D disbursements.

Each jurisdiction's allocation is calculated by applying the percentage of total Alameda County population that the jurisdiction represents to the total quarterly Measure D revenue collected.
