MAY THE 4RS BE WITH YOU CONTEST 2022

My 4Rs: Rebuild, Rethink, Recreate, Redo

My (Re)Generation Action Story

My 4Rs are rebuild , rethink, recreate, and redo.

Rebuild is for We need to rebuild our earth together. Rethink is to not think about the past but we must rethink of way to help the earth. Recreate is for: to recreate our earth. And redo is for: we must redo the actions that we had done.

The world matters is a pic of all the beautiful things in the world. But if we don't take care of our earth, we could lose the things that make earth home. If we imagine earth with our these things it would be miserable. If we don't help our earth it would get worse.

The drawing that I did is about the fact that there is so much destruction and there is a small girl that looks and sees that nature is not only beautiful; it is something we need to care about, people say "I am going to help the planet' but do they? Lots of people here say this but instead they are taking nature for granted. We need to show that we care about the world by helping it, not just saying it.
