

DELIA M. & CLASS, BERKELEY

May the 4Rs Be With You Contest 2021

My 4Rs: Reduce, Reuse, Recycle, Realize

We made a maraca! using plastic spoons, tape, rice, and the plastic egg.

My (Re)Generation Action Story:

We first discussed the topic and the importance to Reduce, Reuse, and Recycle and what that means to us. We discussed ways we can help at home by making small changes and we used our creativity to come up with things that we would actually use by reusing things we have at home. This also made some of us realize how much plastic we are consuming and what we can do to reduce this. It was fun to work on this with our children and watch them engage in this conversation.
