My 4Rs: Reuse, Reduce, Recycle, and Rot

My (Re)Generation Action Story:

I am a part of the (Re)Generation because I try to follow the 4Rs everyday. My 4Rs are: Reduce, Reuse, Recycle, and Rot. When I pack my lunch, I try to reduce the amount of single-use plastics by using reusable containers. During lunch, if there are any paper or plastics, I make sure to put them in the Recycle bin. At dinner time, I collect any scraps and put them in the compost bin (Rot). I chose these 4 Rs because I feel that these 4 Rs will help regenerate the earth.
