MAY THE 4RS BE WITH YOU CONTEST 2022

My 4Rs: Recycle, Reduce, Reuse, Rethink

My (Re)Generation Action Story

My 4 r's are recycle, reduce, reuse, and rethink. Recycle means to put reusable things in the recycle bin so that other people can make other things out of it. Reduce means to not throw a lot of trash away. We need to reduce the amount of trash going in the landfill. Reuse means to make use of another item that was getting ready to be thrown away. Rethink means to think before we throw anything away.

STOPWASTE

Recycle connects to my picture because if we recycle correctly, there won't be a lot of trash, which won't pollute nature. Reduce connects to my picture because if we reduce waste from going into the landfill, there won't be as much trash to hurt trees.

Reuse connects to my picture because if we reuse things, there won't be as much trash to pollute the trees. Rethink connects to my picture because if we rethink about the things we have done to the earth, the earth will be as beautiful as a tree.
