Hello!

Subject: Quarterly Disbursement of Measure D Revenues: October – December 2021

The Alameda County Waste Reduction and Recycling Initiative (Measure D) levies a surcharge on solid waste landfilled in unincorporated Alameda County. Fifty percent of Measure D Recycling Fund revenues are disbursed to cities and sanitary districts that meet criteria contained in the law. Funds disbursed to jurisdictions must be used "...for the continuation and expansion of municipal recycling programs."

The quarterly Measure D disbursement for your jurisdiction, covering the period October – December 2021, is enclosed. A copy of this letter is also provided to your staff Technical Advisory Committee (TAC) representative or designee.

Recycling Board [Resolution 94-27](#) identifies the procedures to be used to calculate the population-based disbursements from the Recycling Fund. Consistent with those procedures, in February 2022 StopWaste updated jurisdiction population counts using 2020 Federal Census population data. The revised population numbers can be found in the Chart of Allocations below.

Tonnages for October, November, and December 2021 (Q2) were as forecast.

Please note that two required Measure D audits will commence in late February 2022. Phase II of the financial audit will ensure compliance for Fiscal Years 19/20 and 20/21 using the Measure D reporting information submitted via the online web portal for the above fiscal years. The second audit is the 5-year programmatic audit to measure compliance with Measure D Recycling Goals. Crowe LLP will conduct the programmatic audit activities in parallel with phase II of the financial audit to alleviate redundancy for member agency and StopWaste staff.

If you have any questions about the provisions of Measure D, please contact me at msoll@stopwaste.org.

Sincerely,

Meri Soll, Senior Program Manager

Measure D Fund Allocations to Jurisdictions – Explanation of Calculations and Distributions

Per [Measure D, subsection 64.060 \(B\)](#), 50% of Measure D tonnage revenue is allocated to qualifying jurisdictions on a per-capita basis. Jurisdictions each receive a per-capita share of the 50% of Measure D fund revenues collected per quarter.

Recycling Board [Resolution 94-27](#) is the policy that identifies the methodologies and procedures that direct the frequency and data sources to be used for calculation of the population-based disbursements from the Measure D Recycling Fund to jurisdictions. Per the Resolution, every two years, in the month of August in the even-numbered year, estimated population is updated using the [State Department of Finance population estimates table E5](#) for cities and unincorporated areas in the County. Final Federal Census data are used to update Alameda County jurisdiction population every 10 years.

For Oro Loma and Castro Valley Sanitary Districts, the Alameda County Community Development Agency utilizes a combination of Census data for unincorporated Alameda County and Alameda Local Agency Formation Commission (LAFCo) jurisdiction boundaries to estimate sanitary district population and provides those estimates to the Waste Management Authority to be applied to sanitary district Measure D disbursements.

StopWaste updated Member Agency population-based disbursement allocations in February 2022 as part of the required 10-year update. Each of the 16 jurisdiction's allocation is calculated by applying the percentage of total Alameda County population that the jurisdiction represents to the total quarterly Measure D revenue collected.
