May the 4Rs Be With You Contest 2020

## Recognize, Reinvestigate, Reforestation & Reimagine

## My 4Rs Reflection

The 4Rs that I came up with were: recognize, reinvestigate, reforestation, and reimagine. I chose “recognize” because if people don’t first recognize that climate change threatens our future, it will be more difficult to make a difference.

Once we’ve recognized the problem, we must investigate it. Since climate change is a present problem and the world is ever-changing, once we investigate a certain topic, we must reinvestigate it to fully understand what’s going on.

With all the deforestation that’s been happening this past year alone, it’s important to encourage reforestation. To encourage people to plant trees because they build the foundation of our ecosystems.

Finally, I chose “reimagine” because in the end, we need a goal. We need to imagine what we want our world to be like after all the changes have been made.

We need to recognise that climate change is a real problem, reinvestigate the facts, encourage reforestation, and reimagine the future of our earth.
