## My (Re)Generation Action Story

I am passionate about the environment and nature, and my teacher Ms Friedhiem has been a big positive influence in increasing my awareness about our beautiful planet.

This year, I chose Rethink, Respect, Restore and Redefine as my 4Rs.

I wrote a song together with my father called A Better Place. This is a song about taking notice of the damage we are doing to our planet and changing our ways to make it A Better Place for generations to come.

# STOPWASTE

This song helps me Rethink how I do things, reminds me to Respect other life, inspires me to work to Restore our trees, and I hope it influences other people to work together and Redefine our world and make it A Better Place.
