My (Re)Generation Action Story:

The button on my lunch box broke, so I Refixed and Resewed it back together. I also Reused leftover fabric to Remake and Redesign an apron for my mom's birthday. Then I Reused some bags as gift for others. They are still in good condition. Lastly, I make some labels/ cards for my teacher, I use some cardbox from snack boxes, and Relabel cookie jars.

I don't throw away any items before trying to use them first.
