

# LUNA D., PLEASANTON

MAY THE 4RS BE WITH YOU CONTEST 2022

## My 4Rs: Remove, Rethink, Reuse, Recycle

## My (Re)Generation Action Story

This girl is Removing a banana from the recycle bin. Recycling is good but we don't want to randomly put anything in the recycling. Even though she had to do another job, she looked up where plants go. She wanted to sort her trash. This girl is Reusing a water bottle

. She is doing that by taking off the cap and putting soil inside. Then she plants a seed which makes plants grow. This girl is Recycling by putting a piece of paper in the recycle bin.

She is helping to stop waste because after something is recycled, it can be made into something else!
