StopWaste is the Alameda County Waste Management Authority, the Alameda County Source Reduction and Recycling Board, and the Energy Council operating as one public agency.

Subject: Quarterly Disbursement of Measure D Revenues: July - September 2021

The Alameda County Waste Reduction and Recycling Initiative (Measure D) levies a surcharge on solid waste landfilled in unincorporated Alameda County. Fifty percent of Recycling Fund revenues are disbursed to cities and sanitary districts that meet criteria contained in the law. Funds disbursed to jurisdictions must be used "...for the continuation and expansion of municipal recycling programs."

The quarterly Measure D disbursement for your jurisdiction, covering the period July - September 2021, is enclosed with the copy of this letter sent to your staff Technical Advisory Committee (TAC) representative or designee. Population numbers were updated in August 2020 in accordance with board policy; updated population numbers per jurisdiction can be found in the Chart of Allocations below.

Tonnages for July, August, September 2021 (Q1) were on budget for Q1.

Please note, Phase II of the financial audit component (as required by Measure D) will be conducted starting late January 2022 to determine compliance for Fiscal Years 19/20 and 20/21. Auditors will utilize the Measure D reporting information submitted via the online web portal for the above fiscal years.

If you have any questions about the provisions of Measure D, please contact me at msoll@stopwaste.org.

Sincerely,

Meri Soll, Senior Program Manager

Measure D Fund Allocations to Jurisdictions – Explanation of Calculations and Distributions

Per [Measure D, subsection 64.060 \(B\)](#), 50% of Measure D tonnage revenue is allocated to qualifying jurisdictions on a per-capita basis. Jurisdictions each receive a per-capita share of the 50% of Measure D fund revenues collected per quarter.

Recycling Board [Resolution 94-27](#) is the policy that identifies the methodologies and procedures that direct the frequency and data sources to be used for calculation of the population-based disbursements from the Measure D's Recycling Fund to jurisdictions. Per the Resolution, every other year, in the month of August in the even-numbered year, estimated population is updated using the [State Department of Finance population estimates table E5](#) for cities and unincorporated areas in the County. Final Federal Census data are used to update Alameda County jurisdiction population every 10 years. StopWaste is in the process of obtaining final 2020 Census data to inform the next quarterly allocation.

For Oro Loma and Castro Valley Sanitary Districts, the Alameda County Community Development Agency utilizes a combination of Census data for unincorporated Alameda County and Alameda Local Agency Formation Commission (LAFCo) jurisdiction boundaries to estimate sanitary district population and provides those estimates to the Waste Management Authority to be applied to sanitary district Measure D disbursements.

Each of the 16 jurisdiction's allocation is calculated by applying the percentage of total Alameda County population that the jurisdiction represents to the total quarterly Measure D revenue collected.
