Honorable Mention Elementary Mixed Media

Our 4Rs: Reduce, Reuse, Recycle, Rot

Our (Re)Generation Action Story:

The 4Rs help all of mankind reduce waste and promote sustainability. We demonstrate "Reduce" by not using plastic bottles, taking carpools, riding bikes to school, and reducing bath time.

Continued on next page

Story Continued:

We showcase "Reuse" by reusing shopping bags, repurposing bottles and other items for storing food, etc. We also donate gently used clothes and shoes. We use glass or metal lunch boxes and carry spoons from home to avoid waste.

We "Recycle" paper, glass, cardboard, and many more very carefully as per city guidelines. Supporting other environmentally friendly causes like running 5k to save the earth are other things we do.

Lastly, we demonstrate "Rot" by composting vegetable waste and making plant food. We also carefully dispose of unused medicines and dried paints per city guidelines. Every day the juice pulp goes to plants as food.

We feel passionate about the 4Rs and want to inspire our friends and families around us to contribute to sustainability and save our only planet "Mother Earth"
