5th and 2nd grade, Oakland

Our 4Rs: Rethink, Reuse, Redesign, and

Our (Re)Generation Action Story:

The story of our model/diorama is: there are perfectly good items around the globe, but many of them are used once and then thrown away. We believe that we don't need to throw away these items when they are perfectly new, we can just remodel and redesign and reuse them for other purposes. For example: the girl in the diorama who was about to throw away the can could use the can for drinking water out of, or creating an art project! A can is one out of millions of items so we think that many others can be reused too!
