My 4Rs: Rethink, Redo, Replay, Remake

My (Re)Generation Action Story:

Re-Think , Re-do , Re-play,Re-make. This photo shows the tainted earth slowly dying from what we have done, like how all the trash we throw away gets mushed together and the compacted trash make but the small light is the hope that we are trying to reach, this shows how we need to Re-Think about what to do and To Re-Do The Future planned for us.We must also Re-Play our memories of what we have done to make this happen like when we throw scraps of food in the trash, And Re-Make it but better like composting the scraps.
