My 4Rs: Reduce, Rethink, Refuse, Respect

My (Re)Generation Action Story:

My 4 R's are Reduce, Rethink, Refuse, Respect. Why am I using these 4 R's are because a lot of people are producing and using plastic bags for carrying the groceries, but that will take so much time to decompose so we need to reduce the usage of plastic, and styrofoam items are using for serving purpose but these will never decompose in landfilled so we need to refuse them.

Also a lot of people are cutting down more trees than they need, and we need trees to be alive so everyone needs to rethink before cutting the trees. We need to protect our environment and give respect to Earth. This is why I chose these 4 R's.
