MAY THE 4RS BE WITH YOU CONTEST 2022

Our 4Rs: Reuse, Recycle, Reproduce, Reuse

Our (Re)Generation Action Story

The reason why we chose to do this is to show people that people need to stop throwing away plastic and recycle it.

The picture shows that a dirty water bottle can shine once you give it a second chance in life.

Under recycle it shows an empty trash can and a heaping recycling bin.

In reduce it shows that people are throwing away things in the trash even if it's recyclable. Then a person is making second choices and recycling.

In reproduce it shows a tree that we thought it was like growing and it kind of shows the earth growing if we take care of our things and recycle them.

STOPWASTE

We chose to do poems and art because they have an effect on people that is powerful. Under each R we have a poem and a picture.

Under reuse, we have an old plastic bottle that was washed clean again. We chose reuse because everything deserves a second chance to shine.

Under recycle, there is a puny trash can that is empty and a heaping recycling bin. We chose recycle because if it is too worn it can be made into something new.

Under reduce, there are two trash cans that represent decisions of Monday and Tuesday. Next, there is a guy thinking about it and finally, on Thursday, he recycles. We chose reduce because the landfill is going to fill up soon and if that happens, we're going to have to burn our trash! That will cause global warming to speed up.

Under reproduce, there is a big oak tree. It represents how we need to grow more trees to make up for deforestation. We chose reproduce because by growing more trees, it helps change extra CO₂ into oxygen.
