Our (Re)Generation Action Story:

People always waste too much
Trash just keeps on piling up
We just need to stop it now
I have no idea how

Some environmentalists
Are like experimentalists
When they talk no one listens
Half the time they just give in

(Oh, my God) that's so insane
(Oh, my God) that's such a shame
Without them, the Earth will not survive
They'll always try to make the Earth thrive
If they weren't there we might not be alive (one, two, three, four)

The Earth is really polluted
We really need to help it quick
So if we do not help the planet soon (that's right, that's right)
We might lose our only home
And we'll have nowhere left to go
So we really need to help our planet (Earth, Earth, Earth, Earth)

The Earth is really polluted
We really need to help it quick
So if we do not help the planet soon (that's right, that's right)
We might lose our only home
And we'll have nowhere left to go
So we really need to help our planet (Earth, Earth, Earth, Earth)

People always waste too much
Trash just keeps on piling up
We've got to stop buying it
Every time will help a bit

Lots of people blow it off
They don't care what's good or not
If they do that the Earth will die
I can't keep explaining why

(Oh, my God) that's so insane
(Oh, my God) that's such a shame
Without help, the Earth will not survive
We just need to try to make it thrive
If we don't do something the Earth will die (one, two, three, four)

The Earth is really polluted
And we need to help it quick
So if we do not help the planet soon (that's right, that's right)
