My (Re)Generation Action Story:

I chose my 4R's as rethink, repair, restore, and rejuvenate because I think that can be easily done by everyone, no matter their age! These R's will save lives of animals and by stopping litter from reaching them. Most of all, these R's will save OUR lives. Eventually, our deeds will come back to us, and if we keep littering, the garbage will destroy the plants that give us air to breathe.
