

# SHRIDULA S. & TISSYA, PLEASANTON

MAY THE 4RS BE WITH YOU CONTEST 2022

## My 4Rs: Reimagine, Replan, Recreate, Replay

## My (Re)Generation Action Story

Me (Shridula) and Tissya worked together on this project and our 4rs were Reimagine, Replan, Recreate, Replay.

We choose reimagine because humans need to reimagine how the Earth would nourish if clean and healthy. Then, all of us need to replan how we are going to embark on this mission to go green and keep the Earth happy. This will give us some time to reflect on our actions, good or bad. After we plan, we need to recreate the environment according to our plan. All of us have to help clean up our beautiful Earth. The Earth always gives but never takes. We all should be grateful to our Earth and help it be the best it can be.

Lastly, Tissya and I choose replay because we need to hand the job to the next generation and they will keep the Earth clean. Generations that come after us should know the importance of keeping our Earth clean. It all starts by just one small step like picking up a plastic cup and millions of others will follow.
