3rd Place Elementary Comic

My 4Rs: Regrow, Rot, Reuse, Restore

My (Re)Generation Action Story:

My picture is showing Regrow, Rot, Reuse, Restore. I connected Regrow because the Jedi Was planting more and more trees when he saw the cut tree. Rot connects to this picture because the Jedi was putting food in the compost bin. Reuse connects because the Jedi is putting the clean wrappers in the recycle bin. Finally, this connects to Restore because the Jeti is putting the new toy on the shelf.

Youngjae's Story Continued:

In my picture there is a sith littering and not using my 4R's Regrow, Rot, Reuse, Restore that is bad so that is why I put the sith on the dark side. On the other side there is a Jedi using my 4R's so that is why I put him on the real Jedi side of the picture.

I used my 4R's too. I used it when my mom was going to throw food away but then I stopped my mom and figured out a way to restore the food. I also used regrow because I planted tree seeds.
